

OUR SOLUTIONS & EXPERTISE

Comprehensive renewable energy solutions that drive real impact

WHAT WE OFFER

RENEWABLE ENERGY SOLUTION

Solar PV, Wind Energy, Bioenergy, Hydropower, Hydrogen Technology, Grid Connected Hybrid Systems, Battery Energy Storage Systems (BESS)

SUSTAINABILITY AND ESG ADVISORY

ESG Strategy Development, Carbon Footprint Assessment, Sustainability Reporting, Environmental Impact Studies, Regulatory Compliance

ASSET INTEGRITY MANAGEMENT

Performance Monitoring, Condition Assessment, Maintenance Planning, Risk Analysis, Equipment Inspection, Reliability Engineering

ENERGY AUDIT

Energy Efficiency Assessment, Consumption Analysis, System Optimization, Energy Management Systems, Performance Benchmarking

WHY CHOOSE US

- 1 Forward-looking consulting firm with proven heritage.
- 2 Comprehensive solutions from concept to operation and asset management.
- 3 Data-driven approach supporting UN Sustainable Development Goals
- 4 Malaysian local expertise combined with international global standards
- 5 Focus on sustainable solutions that drive measurable real impact
- 6 Collaborative partnership approach - "We Are Ready to Collaborate"

CX Lestari is a forward-looking consulting firm specializing in engineering solutions from feasibility studies to follow-on engineering and asset management for a wide array of renewable energy systems including solar, wind, bioenergy, hydropower, hydrogen, grid connected hybrid system, energy efficiency initiatives and Battery Energy Storage Systems (BESS)

ABOUT US

ROOTED IN ENGINEERING EXCELLENCE

Born from the legacy of CX9 Engineering, CX Lestari represents our commitment to Malaysia's sustainable future. With decades of expertise in oil & gas consultancy, we recognized the urgent need to embrace renewable energy and sustainability in today's changing world.

DRIVEN BY PURPOSE, GUIDED BY IMPACT

Established in 2024, CX Lestari blends technical expertise with environmental stewardship. "Lestari" means sustainable in Bahasa Malaysia — a name that reflects our commitment to long-lasting, planet-respecting solutions.

OUR PHILOSOPHY

At CX Lestari, we believe that:
The transition to renewable energy presents tremendous opportunities for innovation and growth

SUSTAINABLE DEVELOPMENT GOALS

CX Lestari is committed to advancing data-driven solutions that support the United Nations Sustainable Development Goals

OUR ADVANTAGES

- 1 *LEGACY & EXPERIENCE***
Built on CX9 Engineering's decades of oil & gas expertise, now applied to renewable energy transition
- 2 *END-TO-END SOLUTIONS***
Complete project lifecycle management from initial feasibility studies to ongoing asset management
- 3 *MULTI-TECHNOLOGY EXPERTISE***
Specialized knowledge across solar, wind, hydro, hydrogen, biomass and energy storage systems
- 4 *SUSTAINABILITY FOCUS***
ESG advisory services aligned with UN SDGs and Malaysia's renewable energy goals
- 5 *INNOVATION DRIVEN***
Data-driven solutions using latest technologies and analytical tools
- 6 *LOCAL-GLOBAL BALANCE***
Deep understanding of Malaysian market with international engineering standards
